

TBEA

A long-term partnership

JNE Consulting has signed an agreement with TBEA Shenyang Transformer Group Co. Ltd. to partner with them in the Canadian and International markets.

Company overview:

Overview

Industry:
Power

Focus:

- Design and supply of transformers.
- EPCM services for power generation & transmission.

- TBEA is one of the largest equipment manufacturer in China with annual sales over 1.5 Billion US Dollars, and an annual output of 130,000MVA.
- TBEA designs and manufactures:
 - * Power and Distribution Transformers up to 1000MVA/1000kV (Generator Step-up, Substation, and Autotransformers)
 - * Reactors up to 1000kV (Shunt, Neutral, Series, and DC Smoothing)
 - * HVDC Converter Transformers up to +/- 800kV

- * Instrument Transformers up to 750kV
- * Dry Type Cast Coil Transformers up to 35kV/20MVA
- * Special Transformers (Furnace, Rectifier, Mining)

In association with JNE, TBEA has signed a contract with Manitoba Hydro to supply a 95MVA/230kV transformer and have made submissions in response to requests for proposal from several Canadian power utility companies.

Currently, JNE and TBEA are actively pursuing other such projects across Canada and North Eastern USA.
